# Action Items

## *This month's activities.*

This is your final official toolkit before we launch Workday!

We appreciate your hard work and dedication to sharing information and resources with the WSU community. Moving forward, you will receive communications and resources on an as-need basis.

## *Know, Share, and Do:*

### **Key Modernization Resources**

Review and share this compilation of Modernization resources widely. Included are critical resources that new Workday users will need throughout training and launch. For those familiar with the Modernization Initiative, this is a good opportunity to revisit and review resources. You will find the compilation available below as both a handout and set of presentation slides.

## Action Items Materials

Click or copy/paste the following links into your browser to access the resources and documents.

### **Key Modernization Resources Handout**
